

Dear parents,

In light of the changes announced by the Chief Health Officer yesterday, there will be some alteration to drop off arrangements from tomorrow.

These will be as follows:

- The option of a staggered start with student arrival occurring between 8:40 and 9:30am. Please choose a time that suits you and your family's circumstances and know that classroom activities will only commence once all students are present.
- While you are waiting, please wear a mask and observe social distancing – you are welcome to use the outdoor equipment prior to your child entering the class to avoid close contact with other families.
- To assist with your child's entry, please take their drink bottle and crunch'n'sip container out of their bag to bring into class.

The wellbeing of our children is most important, and I hope the arrangements outlined will assist with their smooth transition to the changed situation, in as simple a manner as possible.

Kind regards

Michelle Smith
