Dear parents/carers and staff

There has been a positive case of COVID-19 in Year 6 (TA 10) at Goollelal Primary School. On advice from WA Health, I am providing the following information:

The student attended school while infectious on Monday 21 March.

If students and staff are identified as close contacts of the case, they will be contacted directly by the school. All students in the class were wearing masks, so it is unlikely that close contacts will be identified.

You can find out more about what to do if you are a close contact including testing dates at <https://www.healthywa.wa.gov.au>

Advice for all families and staff:

- The school remains open.
- If your child is not identified as a close contact, your child is not required to quarantine and should attend school.
- If staff are not identified as a close contact, they are not required to quarantine and should attend school.
- As for everyone in Western Australia, we ask that you monitor your child/yourself for symptoms of COVID-19 and get tested and isolate until you receive a negative result, if symptoms develop.
- If you or your child develop symptoms, please do not attend school.
- Please note that the Omicron strain can present with less typical symptoms such as diarrhoea, particularly in children.

If you have queries or concerns, please contact WA Health on 1300 316 555.

Kind regards

Paul Fuller | **Principal**
